The amendment filed on February 22, 2005 has been entered and the final rejection has been withdrawn in order for applicant to respond to the following new grounds of rejection.

Claims 1-8 & 10-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicant urges in the specification at page 2, lines 30-33 that only specific ingredients are effective to achieve the desired product of the claims, but all of the specific required ingredients are not a part of the claims. It is not seen that any and all amounts of emulsifiers and anti-spattering agents are effective to form the desired frying composition. Rather it is seen that only the amount of emulsifiers shown at page 5, lines 27-28 and the amount of anti-spattering agents disclosed at page 7, lines 16-17 are effective. Further it is not seen that any and all anti-spattering agents are intended in applicants' product but only the agents disclosed at page 7, lines 9-11 are effective.
